Doc. # 14 nice little piece by B. Hersh from his "Bobby and J. Edgar Hoover." He cites Hoover w/ statement that without FBI informants in the party that the party would go belly up. . . . Plays into Hoover's use of the CPUSA as necessary token for FBI public image, etc. . . . Great PR value. . . Use this in conjunction with statement in Allen Tickler .If there wasn't a CP in USA Hoover would have created one. . .

CROSS-REFERENCE FILE

WRITING STRATEGY FOR OSWALD AS RED

Note: I will need to work this topic in with FBI leaks and with stories in the newspapers. a Communist or fellow traveller, etc In any case a left-winger. Hoover will change tune in short order. But the color Red was the color of favor for a short time. Cite
