

Notes from Hal's ms entitled "Official Trashing."

file - lynching of Oswald

[MS is part of his Agent Oswald files]

Overview of the WCR (pp. 1-2) He notes that about 50% of the WCR is biographical data on Oswald. . . w/o probative proof that he was the lone assassin . . .

Indicated how?: The first chapter of the Report (titled "Summary and Conclusions") . . . was not that alone. It was also the Commission's press release on the Report. (This Chpt. Was published alone and sold as a paperback to the public). . . I need to confirm this w/ sighting of a copy. . . It is 25 pages, next to the shortest chapter in the 900 plus page report. . . Of these 25 pages 8 are taken up with charts and pix of the crime scene, leaving only 14 of text. That is, 14 pages out of the 912 page official Report. This is but a third in length of Chapter Oswald's "background and Possible Motives," and about 1/4 the length of Chapter 13, "Biography of Lee Harvey Oswald. The subject by far that draws the least attention is the chapter of the assassination itself.

I think objectivity demands that this was the only way to convince the American public and the world that it could pin the crime on Oswald when there was not a vestige of evidence of his association with the crime. This was the exercise in lynching Oswald that was trotted out as the greatest criminal investigation in history accomplished by unsubstantiated inferences and capture of the public and media minds with carefully arranged leaks to the press of the most prejudicial information.

Ruby did two services for the plotters: He shut Oswald's mouth and he made it impossible to consider any other culprits.

P. Hal notes Sylvia Meagher's trenchant exposure of how the federal govt. trickery did in any possibility of a Texas investigation of the crime. He cites her piece in Minority of One entitled "Wheels Within Deals: How the Kennedy 'Investigation' was Organized." *** I need to track down deal w/ the WC's jerking around Texas AG Carr and the Texas Inquiry. . .
