

Notes for Oswald as Sole Assassin

Larry Hancock presentation/ DPUK, 2011 "A Close Run Thing"

(I need to review Larry's "Someone Would Have Talked" edition . . . Look at both editions. . .

AP wire Merriam Smith on 11/22/'63 (combat veteran) noted multiple shots in Daley Plaza. . . more than 3 into the president's car'

Agent Greer... In his WC testimony Greer iterated that there was more than 3 shots that came into limo. . . Also SS interviews with people along Elm St. who heard more than three shots.

The Dr Perry 11/22 news conference response to JFK's frontal wound. . . Was not available during his WC testimony. . . this is the whole thing with Specter, etc. . .

Larry MAKES ARGUMENT THAT Dallas police were not as hapless as they have been depicted. . . Not overly impressed with this . . .

Frazier and "The Bag" was not the bag Oswald had in the car according to Frazier. . . certainly not the bag that the Dallas police trotted out later. . .

11/23/'63 Notes that Wade hears from LBJ (via Carter, likely) to drop any charges of conspiracy.. . . national security is used as explanation (no source here) But check with his handout. . .

Parkland drs are pressured to drop the line that JFK's neck wound was a wound of entrance . . . Nurse Audrey Bell testimony re: pressure on Perry the night of 11/22 and into morning of 11/23. . . Dr. McClellan contends (and still contends) that the official autopsy pixs of JFK's do not correspond with what he saw in the Parkland Hosp. . . Has never changed his tune on this. . .

Mentions that there were at least 3 different autopsy reports. . . Notes Horne's interviews with the autopsy drs. in "Inside the ARRB". . .

Notes for Oswald as sole assassin

P. 2

11/23 Saturday morning. . . 10:01 call w/ Hoover . . . 2with the Mexico City problem. . . .an Oswald imposter calling the Russian Embassy . . .Kostikov . . . He notes that this was a carryover from 11/22 call of Hoover to LBJ. . . He sees this as the source of LBJ's 40,000,000 dead Americans. . .

Larry praise for Newman's laterst edition of Oswald in Mexico.

The erasure of tapes. . .Bradford's and the missing 14 minutes. . .

Shifts to Z film and cites work of Doug Horne on the briefing boards. . .He makes point that Z film was not altered. . .but was finessed to make useless. . .Argument was that no official NPIC analysis was ever made.

CONTROL THE DATA AND CONTROL THE CONCLUSIONS. . .

11/24/'63 MULTIPLE TAPES FROM Mexico City have disappeared. . . .the tape that FBI agent brought to Dallas w/ imposter's voice is now trans formed into transcript not a tape of imposter's voice. . .

Hoover backs the cat on the tapeagrees with CIA
