

Writing Notes/Ideas for "Oswald as Sole Suspect"

Possible title for chapter: The Public Lynching of Lee Harvey Oswald.

I need to review all my Early Evidence files for this chapter. Key: Hoover to LBJ on 11/23 Hoover admits "evidence against Oswald not very, very strong." FBI and Dallas cops would work to reverse that situation . . .

(I will have a Chapter on Lt. Day and roll he played after Oswald's murder to correct this situation).

Include Day and Oswald's prints on K1. . . This includes Latona's failure to lift prints off K1 on 11/23. . . K1 returned to Dallas and Day's "care." Day and his handling of the Walker bullet. (Note: I will need to check Q188 at NARA); Day and the curtain rods found at the TSBD shed. . . Day announces they were not Oswald's. . . It will be in this Day chapter (TENTATIVE TITLE: " Lt. Day the FBI's Man in Dallas." Get into the case against Oswald that was no case at all. Hoover to LBJ on 11/23 that "Case against LHO not 'very,very strong."

I will need to review my AF-1 Files. . .

. 17 of Kelly piece it is noted that LBJ did not know JFK had ordered the taping of all "Angel" or AF-1 radio conversations. . .

AF-1 CHRONOLOGY, P. 2 /related matters

Follow up note from Wm Kelly (item 2) P. 17 That both Theodore H. White and Salinger both had access to the transcript of the recordings of AF-1 while the plane was on its course from Love Field to Andrews AF Base. Both Teddy White and Salinger had access to the transcript of these recordings when they wrote their accounts of first learning of JFK's assassination. [This will be used in a footnote citing the Kelly piece (<http://jfkcountercoup.blogspot.com>). But I will quote from both Salinger and White. Note Kelly writes that both White and Salinger quote parts of the transcript in their books that aren't on the exiting tape we have today. Kelly notes that Salinger's copy of the transcript is no longer among his papers at JFK's Library in Boston. (p. 17 of above cited source). Check on Salinger's account in my Prologue to Keenan's story. Also cite Teddy White's account. . .(be accurate. White was not on AF-1 he was allowed to read transcript of the original AF-1 tapes. Do they both note that news of shooting took place at 12: 45 CST. . . .Note: Holland notes that UPI account had three shots fired. . .

5. I need to assign material under "5" re: LBJ's reliance on Rowley and Hoover. I need to focus all relevant material under 5. Find folder "FBI War on SS. . . ." I need some of this material illustrating how the FBI moved in and took over the investigation on 11/22. . .Rowley rewarded see Rowley Bio. Burley promoted to Vice Admiral& became LBJ's White House physician. Challenge the cover story

at Andrews. This call to Baltimore FO came at 5:30 P.M. EST; make note of Gillon's book that LBJ spent most of the 2 hrs 17 minute trip back to Andrews in AF-1 stateroom. . . .in conversation w/ Hoover. . .possibly Rowley. See Gillon, P. 156. .

3. Cliff Carter affidavit Vol. 7, pp. 474-475. . . .Notes security concern by SS that Dallas might be a wide spread plot to decapitate the political leadership of the US as precursor to a full-scale nuclear attack. . . .SS urged LBJ to get to AF-1 and get off the ground . . . go to WDC. . .

4. Questions from Hancock. . . .This is loaded w/ possibilities. . . esp. the apparent lack of a full-scale response to Dallas as stage one in a Soviet planned nuclear attack on the US.. .See Larry's language. . .(credit him if used). . {note: Horne's little mystery of Westmoreland at Bethesda Hosp autopsy. . .when he should have been overseeing a US strategic response to an possible Soviet nuclear attack).. . Role or lack thereof by McNamara (see Ecker piece). . .
