

Oswald as Only Suspect

Folder # 4

*Formerly*

*Batch "C" + Non stuff*

1. Worth review on Kelley/Oswald private discussion . . . See Hal's notes
2. Missing/ filed some other place
3. FBI abhorred ist person statements. . . See C. Arnold for example.
4. Ditto
5. Ditto
6. Note that Brennen was not looking at the 6th floor window when shots rang out but toward the limo (Dave has this also). . . Check with Dave's book.
7. Ditto/ Scott tears apart Posner. . . might want to selectively review.
8. Hal on the security of the TSBD after the 4 assassination. He cites Sawyer for best time. . . but not solidly reliable. Point here: Oswald had plenty of time to descend from 2<sup>nd</sup> floor to front of the bldg to meet with TV man
9. \*\*\*\*\* Bach of statements about employees of TSBD who left the premises without checking first with the police. . . confusion galore. Enough to dismiss the charge that Oswald was the only one who left, avoiding the police, etc.
10. \*\*\*\*\* <http://www.youtube.com/watch?v=z32v9dJABw8> provides multiple examples of doors of TSBD that were never sealed or guarded allowing any shooters of the assassination team to walk away. \*\*\*\*\*
11. P.D. Scott
12. Page from DiEugenio . . . on the topic of the so-called roll call of folks who worked in TSBD. . . destroys the myth that only Oswald failed to show . . . See comments. Very useful . . .
13. Russ Burr article. . . Most useful is a chronology of Oswald while in the custody of the police on page 3. Notes that police who caught Oswald in the Dixie Thearte got him to the Police Station at about 2:00 p.m. So his stats— height, weight, age etc . that went out over the police radio (and could not have been based on Brennen's description makes clear that those stats came from FBI/CIA files. . .
14. Ian Griggs piece on postal inspector Harry D. Holmes. . . Clearly a source for the Dallas police. . . and an FBI informant. . .

*Be sure to check each statement in the file*
