@ Walter Jenkins to LBJ 11/24/'63 RG 64, Box 10, NARA, Correspondence w/ Burke Marshall Regarding Declassification of Jenkins Memo. Key Doc.

****Jenkins reports what Hoover said 11/24/'63 Hoover's call came about 45 minutes after news of Oswald's murder.. .He notes a FBI man was at his bed side hoping he would make a death bed confession.. (sort of B movie stuff) [p.2]. He says DPD did not really have a case against Oswald until FBI gave them one. . .He lays out some of the so-called convicting evidence— none of it would have convicted Oswald.. .P. even Hoover notes that all the talking in Dallas on 11/22-11/24 prejudiced the case and would have "required a change of venue." [Interesting when matched up against the FBI leaking to the press on the so-called evidence" starting on 11/27(check on the leaking). . .Try B of Trust). Hoover right in that Fritz, Wade, and Curry had tried Lee in the press and had no evidence. . . .Key here: Hoover
