F. O. Oswald as
Self
Suspect

~~A~~
~~#~~

Notes w/ SM's WC Critique

Motive: She notes that it would have been idiotic for leftist plotters to pick Oswald as JFK's assassin or fall guy with Oswald's alleged pro-Castro and Soviet proclivities. . .

p.3 She cites Shanklin statement in NY Times 11/25/'63 that the paraffin tests on Oswald's face was positive (when it was negative). I'll need to cite the page. It was page 11. ****

P. 3 Notes that FBI tried to suppress fact that FBI failed to notify the Dallas police of Oswald before the assassination. National Guardian Oct. 31, 1964, p. 8 when Police Chief Jesse Curry revealed on this date. . .

Use next 2 lines with Specter v. Specter

Notes Carrico reported on 11/22 in written report that wound in the President's neck was a "small wound of the anterior neck." WC Report p. 519.

penetrating -

Dr. Clark quoted in press said the same thing. See NYTimes 11/24/'63, p. 2

P. 6 Makes strong point re: Connally's strong insistence about being hit by a separate bullet and after JFK was first struck. . .He was hit by a separate bullet in the interval between the first and second shots that hit JFK. . . The rub here is this contradiction that persuaded WC members like McCloy to distant himself from the S/B theory concocted by Specter. . . .**** Note I can use this. . . in Specter v. Specter. . .

P. 9 She makes point that Seymour Weitzman (one of those who discovered the "murder" weapon (see my BOT) id the weapon as a 7.6 Mauser. . . .The story changed to a M/C rifle only after a 6.5 was traced to a A.J. Hidell that the Dallas Police changed their story. . . Wade told prss that the murder weapon was a Mauser. . .

P. 10 SM notes contradictions galore about identifyin the alleged murder weapon. . . .if needed.

P. 12 She raises issue of a clip for the M/C rifle. . . .Appendix X of the WC Report

Notes w/ S Meagher's WC Critique, P. 2

She notes that Capt. Fritz ejected the last round from K1 as he and other witnesses asserted. . . then there could not have been a clip with the rifle because when the last round in the clip is loaded into the chamber ready for firing the ammunition clip is automatically ejected. . . . So when Fritz ejected the live round from the rifle there could not have been an ammunition clip in the rifle. . . . Check this out with SM's "Accessories After the Fact" . . .

P. 14 SM on Day and the palm print on K1. . . raises some issues. . [

P. Oswald on the 6th floor. . . . SM raises questions: Bonnie Ray Williams was on the 6th floor until 12:20 (if Oswald on floor how could he prepare for his rendezvous w/ history in 10 minutes or at all unless Williams left. . . How could he know that he was not a subject of interest to the FBI (or SS for that matter). . . who were watching him . . .

P. 17 Brennan as a absurd witness . . .

PP 17-21 SM destroys the witnesses who WC used to frame Oswald w/ the Tippit shooting. . .

PP 23ff Key here: Interrogation of Oswald
