JFK COUNTERCOUP(Kelly)

Points to consider:

Tipping point: when the story shifted from Oswald as a commie asset to a single lone nut assassin. Kelly claims it occurred sometime between 7:00 P.M. and 9 PM on 11/22. . . .and it was LBJ who was in Ex. Office Building. . . w/ advice from Hoover earlier on the phone and in company of Carter, Jenkins and McBundy.

Kel Bird

Examine Bird's McBundy and chapter on Dallas

Kel

McBundy was CIA when he was Dean of the school

Lays out LBJ as deciding that the first account was that the shooter was an agent of the Castro govt.

He notes that none of this is on the current available AF-1 radio transmission tapes. . .(I would add here the point that LBJ must have been (strongly suggested) in contact w/ Hoover while on AF-1 enroute to Andrews AF Base and settled on Bethesda Naval Hosp. for the site of the autopsy (a military autopsy conducted by three unqualified physicians whose only qualification was they were under superior orders. (Occasion to use this as entry into the controlled autopsy conclusions pointing to a single assassin. . .)

Kelly notes that communications from AF-1 occurred on any 1 of 3 radios while AF-1 was in flight. (all p. 1). P. 2 he cites testimony by Salinger, Ted White, Manchester, and Rusk's assistant Secretary of State (I have some of this in the Missouri talk). . . Is there anything in Bird's McBundy's book . .

P. 2 He notes that LBJ's actions indicate that he was not concerned that the assassination was prelude to a Soviet nuclear strike. . .(Make this point in MS when I get to that).

P. He notes Cliff Carter's calls to Dallas PD and Wade not to charge Oswald as an agent of the Kremlin. . . .Callas on 11/22 at about 8-9 O'clock . P.M>

p. 4 Cites Bugliosi p. 189. Kelly notes that Goulden was a close friend and media asset (Op. Mockingbird) of CIA's Phillips. . .(not sourced).

JFK COUNTERCOUP, P. 2

p. cites Bugliosi p. 177 re” Wade stampeded by rumors that Oswald to be charged as an asset of the Communist conspiracy, etc. . . Wade to kill this story/source. Kelly claims that the author of this allegation was Bill Alexander. . .

p. 7 He cites Buggsie p. 178 that Lyndon said upon arrival at the Elms “I guess I am the only person in the US who doesn’t know what happened today.” (Oh yeah).

P. 9 Kelly refers to LBJ using the term “shooting scrape” when referencing the assassination of JFKin his conversation w/ Hoover that evening at 7:40 (See Manchester). . . P. 9 Very rich in role of Dallas cops (Stringfellow, et al) and their role in pushing Oswald as a agent or source of Communist influence (agent or instrument). . . .*****

P. 10 More on role of US army reserve intelligence officers and members of the Dallas police force & role in pushing Oswald as a Communist agent-asset/ / /. Kelly makes strong case about Dallas police who were members of the 488th Reserve unitabout 40 to 50 were members of the Dallas PD *****

P. 11 He notes that Stringfellow was part of the Special Services Bureau run by Capt. Gannaway, also a US Army Reserve officer
