Re: Support notes from Tony Summers' "The Ghosts of November"

In *Vanity Fair*, December 1994

p. 88 He makes point that the HSCA concluded its work with the conclusion that there was probably 2 gunmen in Daley Plaza shooting at JFK. One was Oswald and the other it did not name. . .But Dallas was then probably a conspiracy.

A point of interest; Warren delivered a copy of the WCR to LBJ on Sept. 24. 1964.

P. 88 He cites Ford's words "The monumental record of the president's Commission will stand like a Gibraltar of factual literature through the ages to come." He follows w/ quotes from McCloy and Wm Sullivan about uncertainties in the WCR's conclusion . . .all on p. 88.

Note RFK quote: According to campaign aide Bobby said "Subject to being elected [president] I would like to reopen the Warren Commission." P. 90

He notes that JFK's back wound (matched by holes in coat and shirt) were 6 inches below the WC's placement of this wound. . . Jerry Ford's finagling with the penultimate draft of that chapter. . . (p. 90) p. 92 He notes that McCloy, Cooper, and, of course, Russell could not accept the S/B theory. . .and LBJ in conversation w/ Russell agreed with the Georgia senator on the S/B . . . or at least played along.

p. 97 Questions about JFK's back wound in head. . . Was it at cowlick as govt sources insisted. . . Drs with the HSCA and the Rockefeller group . . Some 17 of the medical staff at Parkland Memorial had the fatal head wound at the back of the head. . . blowout at about the back of the head . . .

P. 97. He notes that the HSCA acoustics experts did conclude (1979) that at least one shot came from the front of the limo . . .He cites Dr. Mantik and other qualified drs who agreed that from the X-rays it appears that JFK was hit in the head twice—one from the rear and one from the front. . .

Tony Summers, P. 2 Ghosts of November

Point: After all these years we are left with evidentiary quicksand and compelling belief in neither the lone shooter or two or more and a conspiracy . . . That is one of the shameful legacies of the Warren Commission and Its Report. . .

P. 98 cites Liebler who stated that “no person alive today ever saw that rifle {alleged murder weapon} in the Paine’s garage. . .

Oswald’s prints on the M/C Even Lt. Day under oath said that the prints (Oswald’s) several weeks or months. . . No prints were found on the shells or the live round found in the chamber. . . .(p. 98)

P. 100 Summers on Motive. . . .
