You've got those twin memos, the first memo is from the CIA HQ to the other HQ's, which says that he's big and burley, and 30 to 35 years old; and the other one which says CIA HQ to MC station which says he's 5'10" and 165. The reason I'm so stuck on the 5'10 and 165 pounds is when you get, we'll go to Dallas for just one moment, 15 minutes after the assassination that mysterious phone call, that mysterious message comes in and it says 5'10", 165 (pounds) and 30 years old.

12:45 10/10/63: Attention all squads. Attention all squads. The suspect in the shooting at Elm and Houston is reported to be an unknown white male, approximately thirty, slender build, height five feet ten inches, weight one hundred sixty-five pounds, reported to be armed with what is thought to be a .30 caliber rifle. Attention all squads. The suspect from Elm and Houston is reported to be an unknown white male about thirty, slender build, five feet ten inches tall, one hundred sixty-five pounds, armed with what is thought to be a 30-30 rifle. No further description at this time, or information. 12:45. KBR360, Dallas.

This is 35. But, then I looked at Webster's. Webster got a debriefing, and it goes on for pages and pages, in 1962, and it says, "he's 33 years old but he looks like he's 30." So, I just wonder, if again, there isn't an operation going on, where it's on the day of the assassination that data got tossed into the mix and it wasn't Howard Brennan who gave it to Sawyer. Sawyer doesn't know who he got it from. And Hoover looked at it hard and Hoover said it wasn't Brennan. We don't know. So, that's spooky.

The power centers again, CI/SIG, [Bill says Soviet Union, but he means Soviet Realities] and SAS, as we'll see in those memos, but we won't really have time to do it right. SAS is cut out of the memos. The people who are driving these memos are CI/SIG and the [Bill again says Soviet Union, he means Soviet Realities.] crowd, not SAS. They are cut out.

Its originated by Bustos who is Western Hemisphere and she's underneath John Whitten who got played, you know, like a trampoline by Jim Angleton during the month. He [Whitten] tried to run an investigation, wasn't allowed to. I've never viewed Western Hemisphere as being a major player here. But, I could be wrong. Maybe they should be a power center, but I don't think so. I see the power centers as CI/SIG and Soviet Realities.
