C-15K-8.38 S&W "Gun taken from HHO at time of arrest by Dallas Police 11/22/63. No latent prints of police found on gun."

Yeah, the moose heads were good theatre. I did enjoy this little romp.

You mentioned you were processing FBI laboratory/forensic evidence material. What caught my attention was the exciting news that the alleged Oswald revolver involved in the "murder" of Tippit came with a ringing "inconvenient" and "awkward" forensic drawback that it was clean of Oswald's fingerprints.

Was this from Hal's files or the new material you have accessed at NARA? I ask because I would love to have a copy of this and any related evidence that exonerates Oswald. I think Dave would also be very interested.

I am also assuming that this revelation may be but the first of more such like revelations.

I ask now because I think I could put this to good use in the Introduction to the proposed pb copy of "Breach."

Had an interesting long talk today with Roger Remington. You may remember he was at a Kennedy session in WDC way back in the 1990s and at our table and was a delightful contributor to the conversation. He reminded me today about his Sturm und Drang with that asshole MacAdams. He has written on the WC and is currently at work on a book on Specter's "monumental" contribution to resolving all the mysteries of Dallas.

MEN CANNOT BE LEFT ALONE

They dressed the truck up with the guy tied down on the roof. The driver and passengers put on Moose heads. Then they went down the toll road Interstate, causing 16 accidents. Yes; they went to jail... Yes; alcohol was involved...
