EDWIN A. WALKER
4011-TURTLE CREEK BLVD.
DALLAS, TEXAS 75219
5304 Mt. Vernon Ave.

Not included

February 12, 1979

U.S. Attorney General
Department of Justice
Washington DC 20535

Reference: the attached telegram;
copies of FBI records pertaining to Dallas City
Police, Walker, and a bullet.

The Dallas City Police Department will verify that the bullet fired at Walker, 9 pm, April 10, 1963, passed through the center wood cross strip of the outer screen, through the wood frames of both panes of the window--upper and lower, to include the copper weather strip between and through an inside masonry wall reinforced with solid tin and metal lathing, vintage 1926, to fall spent below the exit hole in the mortar blown from the wall.

The bullet used and pictured on the TV, by the US Senate G. Robert Blakey Committee on Assassinations is a ridiculous substitute for a bullet completely mutilated by such obstruction, baring no resemblance to any unfired bullet in shape or form.

I saw the hunk of lead, picked up by a policeman in my house, and I took it from him and I inspected it carefully. There is no mistake. There has been a substitution for the bullet fired by Oswald and taken out of my house.

It is requested that you withdraw the substituted bullet from all records and files pertaining to the assassination of John F. Kennedy and the attempted assassination of Walker, and that you assure the security of the withdrawn bullet for future comparisons.

I desire to be informed of your actions.

Sincerely,

Edwin A. Walker
