

Walker Notes (New docs), FOLDER # 9

1. As stated on file list
2. Marina's tale-spinning re: Oswald Walker shooting to SS Kelley***
3. As stated ditto
4. Classic example of news stories playing games with the Walker shooting. The report appeared in Washington Post that Walker bullet and the JFK bullet were similar. . . .implied here that Oswald was tried again posthumouslyThe FBI in this doc. rejects this assertion . . .FBI lab report did not "reflect such findings." In the WP story Carter (WP newsman) asked in this story 2/19/'64 asked Curry is he was going to close the case. Carter replied: "I guess so in view of Marina Oswald's testimony to the effect that Oswald has been identified by her as the one who shot at General Walker. . . ." Did he mean close the Walker case???? Here is a case study of Marina's great value. . . ##### note item 11 below.
5. Item sheet with docs listed that are found in folder #8 for most part
6. **** White chronology sheet on Walker case. . . Review carefully. . .****
7. 7. Note to myself to run a search on General Walker. .
8. Rosen to Belmont 12/3/'63 62-109060- serials 4180 (Part I)/ EBF This is first indication of FBI interest in the Walker shooting. . .Reports on Marina spinning tale of Lee's attempt on Walker. . .Note again: FBI claim that it offered to run tests on the Walker bullet back in April 1963 but Dallas PD was not interested!!! I thi9nk this is a lie. . .
9. Jevons to Conrad 3/27/'64 62-1090602845 contains report from Heilberger test on the Walker bullet. . .spectro test (standard FBI ballistics test at the time) and found no connection between Walker bullet and JFK bullet frags. . .lead composition different. . .(point being that spectro testing was junk science at the time but not understood at the time) . . .
10. The law in 1965 The AG was empowered to choose any item of evidence for retention by Govt as it relates to the assassination of JFK . . .**** Use w/ item 9 in Walker folder 8.

Reflected by Marina's file on Walker shooting

Marina's invention

Reflected by Marina's Walker shooting

*Heilberger lab work up on Q158 12/4/1963
lab # DC-78328 BK NB.
Notes p.3 "No copper jacket + no lead core"*

12/21/63

see attached list of things for U.S. Steel - Vickers bullet

(Walker Notes/New Docs), Folder 9, P. 2

9. To Jesse E. Curry 12/9/'63 (DMARC—Dallas Municipal Archive Center Box 20, Folder 9) contains assertions that the JFK bullet frags and Q188 (Walker bullet slug) could have come from the same rifle. . . couched in such language that Curry could have inferred enough that Carter ran with story in WP that Q188 and JFK bullet frags were from same weapon . . . See item # 4 above. . .
