The following pertains to the photographs of LEE HARVEY OSWALD.

Dallas should submit a copy of every photograph they exhibited to MARINA OSWALD. Each photo is to be numbered according to our identification system. Dallas should identify the investigative report and the page number where the particular photograph was shown to MARINA OSWALD.

The next request pertains to the other evidence, such as postcards, film, negatives, etc. that would have been shown to MARINE OSWALD. For example, if it is a postcard, send up a photograph of it, showing the number of the postcard, the investigative report and page number where this was shown to MARINA OSWALD. What they want here is to submit the same information as in paragraph immediately above.

The next request pertains to the cook book where the WALKER letter was found. The Commission wants to see the book itself. Bureau has in the Laboratory the WALKER letter, but they want to see the volume of the book where this letter was found.
