One letter from University of Texas South West Medical School including report from Dr. Clark and summary of their findings of treatment and examination of the President in the Dallas County Hospital. Said letter of transmittal states that three carbon copies have been retained in that area.

One copy of autopsy report and notes of the examining doctor which is described in letter of transmittal Nov. 25, 1963 by Dr. Gallaway.

Transmittal letter and 7 copies of the above item (autopsy report)

Authorization for post mortem examination signed by the Attorney General and dated Nov. 22, 1963.

Robert I. Bouché

The Commission failed to publish this receipt even though it is supposed to be included as part of a published exhibit, CE 397. The reason is obvious: had it been published, questions would immediately have arisen as to why none of the items included in the list are a part of the Commission's evidence. That the Commission did not obtain these items, readily available to it, is proof that it did not seek the most basic evidence of the crime. The Navy death certificate alone is destructive of the entire official solution to that crime. See pp. 102, 307-8.
