MEMORANDUM FOR: Mr. J. Lee Rankin

SUBJECT: Chronology of Oswald in the U.S.S.R.

1. Transmitted herewith is a detailed chronology of Lee Harvey Oswald's sojourn in the U.S.S.R. and an alphabetical listing of persons in the Soviet Union who were known to or mentioned by the Oswalds. The name list includes identifying information when available.

2. Both the chronology and the name and trace list are in preliminary form. Continuing study of the materials presently available to CIA and the receipt of additional materials and documents will enable us to revise and amplify the drafts.

3. The narrative chronology is, insofar as is possible, a day-by-day account of the life and activities of Oswald in the U.S.S.R. It is based on personal documents, interviews and official and unofficial correspondence. Explanatory notes have been added where they seemed appropriate. The format of the chronology (one date per page) is intended to facilitate rapid and easy revision.

4. The name list includes more than one hundred separate entries. Each name is followed by a synopsis of the references to it in the Oswald materials and by identifying trace information from other sources whenever such information is available. Identifying information on some of the names has been drawn from CIA files and from such sources as the Moscow and Minsk telephone directories.

Richard Helms
Deputy Director for Plans
