

These pages that the CIA identified with encircled S numbers in the upper right-hand corner are those of particular interest. I presume this is the order in which I received them and it is not chronological or numerical order. I believe also that these S numbers were added for purposes of this litigation. In some instances I added the missing part of these S numbers.

21
The June 9, 1965 memo is explicit that the subject wanted nothing to do with the FBI in N.Y. But did not absolutely refuse to (page 2). He is a long-time informer (page 3).

On page 6 there is a reference to the subject's source as a DJ official and as having the "ing file, including tapes and pictures, in his office. That was a Sullivan operation and while I do not know whose name is excised, it is five spaces and that fits Sizoo, Joseph A., in Sullivan's division, domestic intelligence. Different FBI records rank Sizoo as inspector and number 1 man in that division. This stuff was in Sullivan's office, as came out during Watergate.

The utter irrationality and unreasonableness of the subject's political views are apparent. Chicom indeed!

S-23 reflects that the CIA had another such source who saw the subject at his NYC home 7/13/65. ^{This} ~~This~~ and the dates the subject was interviewed in Washington make it possible for anyone who keeps the usual professional records to establish that he is not this subject if he is not.

On S-13 I wrote "obliteration?" at the bottom of the page because no claim to any exemption is made. Where "FBI" is written in over an obliteration in this and other records it means that the info. originated in the FBI and was referred to them for compliance. I do not recall receiving any of this from any agency.

S-11, the note at the bottom is mine.

And this made me think as I should have earlier with regard to the incomplete S numbers. What I thought were the originals are not. I've retrieved them from the basement and I'll just add them, with any notations or comments regarding any not among these copies. The CIA affidavit covers these records. Or, the set with the affidavit attached is made directly from my originals.
