6/7/'98

Dear Ms. Oliver:

I have been going over the Justice Department 129--11 files on the JFK assassination. In the process I came across two documents, which I have enclosed, pertaining to John McNaughton.

As far as I know McNaughton was the only one of the select government officials, cleared to read the FBI report of the Kennedy assassination, who roundly criticized the the report, or CD 1. For his efforts, the Bureau launched a villification campaign against him, one that was calculated to draw blood.

I have tracked down the documentary evidence of this FBI campaign in the Main JFK Assassination files (62-109060) but I would very much like to have the letter he wrote to Nicholas Katzenbach on December 16, 1963.

I thought perhaps the enclosed documents might facilitate a search for his December 16th letter.

Sincerely,

Gerald McKnight
