

Martha W. Murphy  
Archivist  
Special Access FOIA

11/27'98

EIF

Dear Ms. Murphy:

Thank you for the copy of Lee Harvey Oswald's autopsy report. I am finishing up a paper on the JFK autopsy and have a few FOIA requests and a few questions you might be able to answer.

I'll itemize:

I'd like copies of Commission Document 962 and Commission Document 371.

Will you check your database to see if there is a copy of the U.S. Navy authorization form for the JFK autopsy. The authorization was signed by Robert F. Kennedy. I have checked over the "Master Set of Medical Exhibits" released by the ARRB and it is not listed. It should have been part of the documents making up Commission Exhibit 397 and also in Commission Document 371 but it was suppressed. My hunch is that it was either destroyed or filed away in some obscure government archive. But I wanted to check with the Archives just to make sure.

Finally, is there a manuscript by Harold Weisberg entitled "Bogus" in the records you have just received from the ARRB? If it is present have you assigned an accession tab or indicator to it, and if so what would that be?

Once again thanks for the LHO autopsy report and all your past help.

Sincerely,

Jerry McKnight
