DL 100-10461

In the area of the second lamppost, approximately thirty-three feet east of the post, in the sixth large cement square, four feet from the street curb and six feet from the parkside curbing, is an approximately four inches long by onehalf inch wide dug-out scar, which could possibly have been made by some blunt-end type instrument or projectile. It is noted that this scar lies in such a direction that if it had been made by a bullet, it could hot have come from the direction of the window the President's Commission on the Assassination of President KENNEDY has publicly stated was used by LEE HARVEY OSWALD when firing his assassination bullets at the late President.

This particular scar is in line with the western end of the multifloor section of the Texas School Book Depository building, that is, the opposite end of the building from where OSWALD was shooting at the President.

No other mark was found in the area of the second lamppost which might appear to have been made by a bullet.

With respect to the advisability of interviewing CALL FREUND of "The Dallas Morning News", it is pointed out that he was interviewed in connection with the investigation into the leak of information from the OSWALD diary. It is felt, however, that he should be interviewed concerning this mark, which, according to ALDREDGE, was believed to be a bullet mark by FREUND, as well as ALDREDGE.

It is believed an interview with FREUND concerning this alleged bullet mark could be handled in such a manner as to obtain his full cooperation and at the same time endeavor to ascertain from him why, if he thought it was a bullet mark, he failed to bring it to the attention of proper authorities.

No interview will be conducted with FREUND until advised to do so by the Bureau.

SAC, Dallas (100-10461) -5169 To: **REC 14** Director, FBI (105-82555) From: LEE-HARVEY OSWALD, AKA. IS - R - CUBAATTENTION: CRIMINAL SECTION

Rourtel 9-29-64, Duairtel 10-12-64 and urairtel 10 - 16 - 64.

It would appear that the area described by Aldrodge in rotel and the area checked by you on 9-30-64, are not the same. If feasible Aldredge should be requested to physically identify the area wherein he claims to have seen the bullet mark. In addition, suitable arrangements should be made to interview Carl Freund of "The Dallas Morning Nows" to dotermine if he can substantiate or disprove the allegation made by Aldredge.

The results of investigation should be incorporated in appropriato inserts and reported. Furnish the Bureau an airtel summary of the results of this investigation and the interview with Freund.

COMM-FBI 181 (7) JA-Dallas in retel stated Aldredge telephonically NOTE: contacted the Dallas Office and claimed to have seen a bullet mark on the sidewalk adjacent to the Texas School Book Depository from where the shots that killed President Kennedy were fired. He also alleges Freund, the Dallas reporter, is of the same belief. Dallas conducted an area search and located a mark approximately four inches by one-half inch in an area near the Texas School Book Depository but in a position which would make it impossible to have been fired by Oswald. In order to verify the location of this mark, Dallas is being instructed to have Aldredge physically point it out and also to interview the reporter who can either substantiate or - disprove the allegation. Dallas feels the interview of Freund can be readily handled. Aldredge stated he did not furnish this infor-mation earlier as he felt it would be covered in the Commission's report and further did not want to become involved; however, now - felt it should/be brought to our attention. When the results of this matter are concluded it will be incorporated in a report and disseminated to the President's Commission or its duly designated authority. -9 OC 12 8 1984 TELETYPE UNIT
