

MS Folder # 12 Evidence (General)

1. Single-bullet theory comes to life

Eisenberg April run-throughs/ Hoover calls it all "poppycock"  
Important stuff in this batch

2. Frazier's report on the inside of the limo. Especially brain tissue behind the visors suggest a higher powered bullet than what came out of the M/C.  
Also Frazier's testimony before WC that FBI has the spectro results/will keep them.  
Find this in folder w/ WC testimony used for autopsy article.  
Description of LHO's M/C

3. Connally's clothes/ wounds

Dave Wrone piece on Connally's death taking frags w/ him  
FBI never examines Connally's coat/had no idea what happened to it  
DL PD report that frag not bullet lodged in Connally's thigh  
FBI reports to Life mag that frags in C's writs and in limo were "similar"  
Hoover admits to Rankin that C's clothes were laundered before they were retrieved

3.

4. Stuff on paraffin testing/ and NA on JFK's collar---negative  
DLPD tests on LHO cheeks prove negative  
Hoover discounts NA tests on JFK collar  
Hoover tells Rankin that nick in JFK's tie "may be caused by missile."

4. FBI failure to depose motorcycle cops  
Jackson affidavit

5. Check Gallagher's WC testimony. He is the last to testify. Not on spectro.

6. Hoover to Rankin 2/27 admits that Ruby was contacted by FBI/ but no to PCI
