Two docs. about processing info. CIA/FBI systems to alert re: threats against the President.

1. Walkert to Tavel 4/20/'64 re: Notes CIA 's experimenting with an IBM retrieval system. FBI studying the CIA system that sorts IBM cards auytomatically while the FBI has clerks do the sorting, etc. Hoover note: "I hope we are really on top of this & not following antiquated physical (routines?)"

2. Branigan to Sullivan 4/17/'64 re: Info. from FBI liaison with CIA Papich relates from Angleton re: security of president. This is WV interest here. Angleton advised that Warren did not seem as though he was trying to fix blame on any indivisual or agency. That Warren was concerned about the under support of the SS which has not the monies to provide adequate protection. This was an area that WC was looking into. Good news for FBI was Angleton's impression that WC was not looking for scalps in the JFK assassination. (But the final report still sends Hoover ballistic.)

3. More on sur. of Mark Lane

Hoover to Rankin 5/7/'64 re: see above

More on sur. of Mark Lane

4. Hoover to Rankin 5/5/'64 re: see above

FBI HQ file on Oswald up to time of assassination of JFK

5. Hoover to Rankin 5/4/'64 re: Notes some 69 items on 9 pages

FBI record of checks cashed by LHO from June to Nov. 22 '63

This file was not copied. The largest check was for \$79.00. They appear to be all payroll checks from Leslie Welding Company, inc. in Ft. Worth and Jagers-Stovall in Dallas. Some from the Wm. B. Reilly Company, Inc. in New Orleans.

The 2nd re-enactment goes ahead by WC

6. Rosen to Belmont 5/11/'64 re: Despite Rankin telling Belmont earlier that there was no need for a 2nd re-enactment back in April. Rankin was mollifying FBI which refised to take part. Now Rankin is going ahead with 2nd re-eanactment althlough he is calling it an exercise to gain additional technical data, etc. Hoover note is simply "OK." FBI will provide what is needed. Rankin was learning.

7. Rosen to Belmont 5/21/'64 re: re-enactment issue. Notes that WC is sending Specter, Redlich to Dallas. What troubles WC now is whether only two shots hit occupants in limo and the possibility

Page Two

that one shot missed!!!! This was before Dillard emerges in July. This was the need to send team to Dallas for "on-the-spot" to fill in gaps. Along with them will go Shanyfelt, Gauthier, Frazier and Malley.

There are 3 docs. on this

More on Buchanan ✓

8. Brennan to Sullivan 5/19/64 re: B's book "Who Killed Kennedy?" is getting attention in Europe. CIA's McCone spoke to Warren about this. Trying to head off WC calling B as a witness

More on FBI filing system

9. Tavel to Mohr 4/28/64 re: Nothing meaty except that it was an Stern of WC staff who was responsible for looking at FBI system. This doc. might be useful about his relations w/ FBI if I use Stern affidavit and quote about the FBI.

Belmont memo on his testimony before the WC

10. Belmont to Tolson 5/6/64 re: this is a four-page memo.

Copy of editorial in an Augusta, Ga. paper red-baiting Redlich and praising the FBI. ✓

11. Hoover responds with a hearty thank you letter. The correspondent who wrote the piece was on FBI's Special Correspondents' List.

Belmont memo on Hosty's testimony before the WC

12. Rosen to Belmont 5/5/64 re: see above. No problem says Belmont as WC members seemed satisfied w/ Hosty's explanations.

More on Public Outcry about Redlich

13. DeLoach to Mohr 5/5/64 re: a letter from Senator A. Willis Robertson in Richmond News Leader (4/15/64) pointing out Redlich's alleged subversive associations. FBI failed to acknowledge the letter. DeLoach suggests that senator be orally thanked for his letter but not in written reply because if seen it might infer Hoover's approval of the sentiments expressed. Hoover note: "It is too late now. We just mishandled this."

More on FBI's Concern about security where President is concerned.

14. Belmont to Tolson 4/28/64 re: Belmont talk about dissemination changes re: security since the assassination. Can see
