WC requests FBI file on Oswald before Assassination

7. Belmont to Tolson 6/8/'64 re: Belmont reports that during his testimony before the WC he was asked about FBI file on LHO before the assassination. McCloy opined that WC should look through the file. So at the time of Belmont's testimony (find date) the WC had not troubled to look at this file. The file was delivered to Rankin's office on 6/3/'64. McCloy apparently looked through the file. No indication that any other Commissioner did the same.

Cite of FBI interest in Marina's testimony that Lee was going to shoot Nixon

12. Hoover to Rankin 6/4/'64 re: There is ~~is~~ much interlared in this section about Oswald's threat to Marina that he would shoot Nixon. FBI investigation into this and Walker shooting are linked at this time. But it developed that LBJ ws in Dallas two weeks before the Walker shooting and FBI interested in whether Marina confused LBJ w/ Nixon. Point here: Marina was most damaging witness against her husband. (Need to check on Hal's Marina Subject File.)

On Redlich as security threat

13. Callahan to Director 5/13/'64 re: Sen. Mundt goes gunnig after Redlich. There are other citations re: Redlich that are Red-baiting in nature in this section. I have only copied this because I have a Redlich file.
