WC's June '64 draft of report (it was 474 pages.)

1. Rosen to Belmont July 3, '64 re: The FBI got this through a source. it was probably Ford. Notes that report contains ni criticism of the FBI. This was the primary concern. There will be a 4th and final report and this made availble through a source by July 23, 1964. (This is a date the WC will not meet. Tague bullet intervenes and I suppose other matters.)
See attached a three-page summary of this report. (I have this summary in other file.)

Rankin praises the bureau for its work in the case

2. Rosen to Belmont 8/18/'64 re: Rankin wants to highlight Belmont and Hoover's testimony in the final report, etc.

5. Rosen to Belmont 6/3/'64 re: see doc. 2 but this adds the summary of the 3rd draft. See Forward where Rosen notes that the WC draft states that FBI continued its investigation into the assassination. That is, it continued after CD 1 was released to the WC.

6. Rosen to Belmont August 3, 1964 re: origin of the leak was in Henry Wade's office. Suspect has to be Alexander.

7. Director to SAC, Dallas, 8/3/'64 re: FBI certain that Alexander was the one who leaked the diary. They lifted his prints off copies of the diary.
