FBI analysis of books on WC

1. Batch includes summary reviews of "Whitewash" (along with FBI diatribe against Weisberg), "Inquest," et al.

Complier note: Rest of this section deals with FBI interest w/ Weisberg and talk show (Noble in NY), Popkin, Revilo Oliver, and Penn Jones, etc. Could be useful for review if you wanted to flesh out the Allen tickler file and reference to building up sex dossiers on the critics of the WC Report. That is, especially those critics whose works appeared in 1966. Could be used as a note citation in tesxt.
