FBI position on spectrographic analysis

1. Wick to DeLoach 1/11/'67 re: Response to Life Mag. request on interview. Report on spectro was that all fragments from limo, JFK's head wound, and Connally's wrist were "similar in composition." A give away of the fact that more than one kind of ammo was used in the assassination. Was this the language of Gallagher's report in the WC hearings?

FBI on Manchester's "Death of a President"

2. Jones to Wick 3/28/'67 re: synopsis and characterization of Manchester. Hoover note: In respect to charge that Manchester is manufacturing a falsehood, Hoover writes "He is an expert at this."

3. CBS News Program on the assassination stirs up the pot1
