iNVENTORY OF Hal's FBI Report (CD 1)
Location: Subject files in basement

1. Belmont to Director 12/4/'63

Re: The two reports are the Assassination Report and the Report of Killing of Lee Harvey Oswald

Note: They are ready on December 4, 1963.

Status: Copied

2. Belmont to Tolson 12/6/'63

Reports on phone conversation w/ Katz. Katz notifies Belmont that Olney was "dumped." Obviously the FBI had registered its strong objections to Olney.

Katz also raises point about Gen. Walker shooting upon reading the report was whether Oswald was suspect by DL police in Walker shooting. Belmont's recollection that DL police did not have Oswald as suspect. This is important because Katz will tell Salinger to release to press that DL police did suspect Oswald. What is the date of this Katz-Salinger conversation. Case of Katz playing fast and loose with the facts.

Status: Copied

3. Malley to File 11/24/'63

Status: No copy. I Have

4. Hoover Memo to Honchos 12/12/'63

Re: Phone conversation w. Rankin where Hoover concerns about the JD's (Katz) rushing to conclusions that have not been tracked down yet,

Status: No copy I have.

5. Katz to Warren 12/9/63

This is cover letter going along with copy of CD 1. Katz praise for CD 1 as an exhaustive study, etc. . .

Status: Copied. But I think I have a copy in files.

6. DeLoach to Mohr 12/9/'63 (62-109090-16)

The prss release that Katz's wanted the WH to release was shot down by Fortas. Instead, Katz substitutes w/ the cover letter to Warren. He calls on WC to release statement asap to kill off "rumors, gossip and speculation. . . ." These were real bugbears with Katz. (See the mail coming into the JD).

Status: No copy. I have doc.

7. Branigan to Sullivan 12/17/'63

Re: Report on the FBI reports (quantity) that went into CD 1.

Status: Copy
