#1 Gauthier to Callahan, 4/15/'64 Re: reporting on the mtd. with the prosecutors to analyse the Z film and the wounds sustained by Connally and JFK. The drs. go through the sequence of the shooting and have three shots and three hits. The Tague bullet is still ignored at this point.

FBI refuses to be a party to a second run-through staging of the shooting. This is all part of the Eisenberg/Redlich section they were responsible for in the final report. Check against Rankin's urge to get the report out asap. They have not yet settled on the single-bullet theory.

#2 Pasge from Schlesinger' Robert Kennedy in which S describes that fater JFK's death Hoover had the direct line from the AG removed from his desk. He also replaced C. Evans, Kennedy's friend, with the obsequious DeLoach as WH liaison.

#3 FBI Dallas 12/22/'66 Re: FBIHQ rrsponse to Manchester's charge in his book that FBI agents were too busy "looking for places in the parade" and were therefore laxed in their security responsibilities, etc.

FBIHQ that all DL FBI agents be interviewed if they witnessed the presidential motorcade what they were doing at the time, etc. There is a sample from SA Pinkston attached. All applies to FBI image and response when under attack.

# 5 A list of names and addrwsses in Oswald's address book compiled by SA Hosty. Hosty's name, lisencc, and phone number not in the list.

- # 15 Docs. on the Tippitt bullets
