

Sylvia Meagher Corresp.

Braverman, Shelley

Re: SB was a firearms expert from Athens, New York. Editor and publisher of the Firearms Handbook and The Firearms Encyclopedia.

SM had modest corresp. with Braverman(1967). File includes several articles by SB on the JFK assassination. His writings in 1967 were critical of the WCR.

Brunson, Beverley

Re: Sample of the kind of novices and "cranks" on the JFK case who sought out SM and would eat into her time. BB was into kooky stuff but SM does not humiliate her she tries to educate her.

CBS (1967)

SM writing to the upper echelon of CBS on their documentary on the JFK assassination. Included here are Walter Kronkite, et. al. Good stuff in terms of dealing w/ the information establishment and their support of the WC findings.

Berkeley, Edmund

Re: EB was editor of Computers and Automation. Carried some articles by Cutler and S prague on the assassination.

Bernabei, Richard (1968-1971)

Re: RB was in the Dept. of Classics, Quenn's University, Kingston, Ontario.

Good file. See xeroxes made. Good stuff on HW and Wecht's efforts to see pictures/x-rays of the autopsy. Contains some comments on H. Roffman's book. Also RB's work on the General Walker bullet. See SM's reaction to Paul Hoch's melon tests and his conclusions about the results re: upholding the WCR. SM was outraged.

File contains several ms. articles by RB including one entitled: "Multiple Minute Fragments of Metal in the Front of JFK's Head: Evidence That a Shot was Fired from the Front." (1970).
