It should be noted that CHARLES DOUGLAS GIVENS, upon interview after the assassination, stated he left the Texas School Book Depository building about noon and watched the Presidential motorcade from outside the building. He stated he was on the sixth floor until about 11:30 AM when he used the elevator to travel to the first floor. As he was going down on the elevator, he stated an individual known to him as LEE yelled to him to close the gates on the elevator so LEE could have the elevator return to the sixth floor.
