

H/PS # 315

FOLLOW UPS FROM LAST WEEK:

ASK IF THEY WENT TO YOU TUBE AND THE STRIPING AWAY OF JFK'S SECURITY?

CONDITION OF CE#399 WHEN FOUND IN HOSPITAL.

ORIGINAL WEIGHT OF 6.5 AMMO WAS 161.SOMETHING GRAINS.

CE#399 WEIGHED 159. SOMETHING. IT LOST ABOUT 2 GRAINS IN WEIGHT. A GRAIN IS 1/437.5 OF AN OUNCE. Or THERE ARE 437.5 GRAINS IN AN OUNCE.

A STAMP WEIGHS ABOUT ONE GRAIN.

CE# 399 WAS VIRTUALLY PRISTINE CONDITION

DID CE#399 COME OFF OF CONNALLY'S STRETCHER.? WC CONTENDS IT DID.

THIS IS DISCUSSED IN CHAPTER 8

CAN SAY THIS AT THIS POINT: THE BULLET DID NOT BURY ITSELF IN CONNALLY'S THIGH. MALCOLM PERRY ON THIS. IT WAS A FRAGMENT NOT A BULLET AND CONNALLY HAD IT IN HIS BODY WHEN HE DIED.

@ FBI IGNORED THE TAGUE BULLET BECAUSE, IT HAD ACCOUNTED FOR THREE SHOTS/THREE HITS. SINCE THERE WERE ONLY 3 SHELL CASINGS FOUND ON THE 6TH FLOOR OF THE TSBD THERE WAS NO WAY TO ACCOUNT FOR A FOURTH BULLET WITHOUT POSITING A SECOND SHOOTER.

WALKER SHOOTING—ANY COMMENTS ON THIS????

NEXT WEEK I'LL LOOK AT OSWALD AND OWNERSHIP OF THE RIFLE.

AND OSWALD'S WHEREABOUTS AT THE TIME OF THE SHOOTING.

ASK CLASS: WHEN YOU ARE READING BOT OR BROTHERS DO YOU CHECK SOURCES CITED?
