Doc. # 8 batch on Manchester/Hoover matter. See DeL to Mohr March 30, '64 where Hoover notes he will not see him because of Katz's blaming FBI for "leaks" etc. Tolson says DeL could handle Manchester. This batch does not have Bobby K's request. See folder #3

Doc. # 9 DeL to Mohr June 4, '64 the Hoover conversation w/ Manchester where he boasts that FBI took over the case without authorization.

Doc. # 16 Shanklin to File 11/22 Notes that Belmont called (no time) and for DI office to take over the case. Notes that O'Leary was sent by Assistant Director DeL to Dallas. O'Leary could keep an eye on the reporters and what stories they were getting and their sources. Develop O'Leary as a Hoover favorite here.

JD Keeney to Hutchinson July 3 '75 notes that assassination of President in '63 was not a federal crime/but US Code title 1u8, etc passed on August 28, 1965 makes it a federal crime now.
