

To BF from HW re 105-3702

5/7/83

Attached is the penultimate page of the worksheets of this file. As the note I've added shows, you did not get all of the records reflected as disclosed to you. You got, according to the copies you sent me, only ~~that~~ those that are in the FBIHQ 105-82555 file, those originally marked on the worksheets as "previously processed."

If you do not have copies of this entire file from the FBIHQ general releases of 12/77 and 1/78, then you do not have all those withheld as "previously processed."

And if I remember correctly, you do not have the general releases.

I believe there are a few other instances on the last page.

I've not checked the earlier pages of the worksheets.

If you have a fair judge and you've not made a deal for them to withhold those disclosed in the FBIHQ records, if not to you, then you can, I think, bring them up short on their "previously processed" trickery which, from my experiences, is a device for both withholding and to avoid getting caught in improper withholdings.
