11/27 FBI starts a mail intercept on Marina

Under a regime of protective custody for almost 90 days. . . Can I be specific on the days. . .

11/26 and 11/27 FBI agents Brown and Hosty attempted to question Marina. . . Was this when Robert Oswald was present and claimed that Hosty was abusive. . .?

11/28 FBI arranged for INS Harvey and only FBI to confront Marina. . . Note here that Sullivan takes control at SOG of treatment of Marina.

Somewhere interlarded between these dates I have to get into the SS treatment of Marina on 11/22 with shooting of her husband and then word of his death.

This deals with the abuse Marina experienced from the start of her virtual "captivity." See Robert Oswald WC testimony and other sources listed by Jim White.

Also when do I introduce Martina and Marina living at the Six Flags????

Marina's spinning the FBI/her lies

When did Marina get Warren to lift the SS protection?

1/24 Rankin asks Hoover to place a 24-hour surveillance on Marina. Hoover pressed Rankin to include a telephone tap. The FBI secretly also added without authorization a "bug" in Marina's new home.

February 29, 1964, phone tap was installed. . . and two days later the bugs were operating.
