supervised and guided the emergency planning of a foolproof, effective installation that could not be detected with only hours to perfect. The sensitivity and absolute mecessity that detection mot be made was not only due to the nature of the installation, but also due to the worldwide prominence of MARINA OSWALD. Had detection been made, the effect on the mational reputation would have been most detrimental.

speedily and efficiently assisted in the planning, COnstruction and installation of the MISUR and TESUR. The installation required inconuity, cunning and daring performance on the part of Installation and removal of the Installation and removal of the MISUR were extremely sensitive and required a great deal of physical exertion and personal inconvenience.

Due to the performance of this handling of this installation and the manner in which the obstacles relating to the successful installation were overcome, I recommend that the successful installation avard.
