

Notes to Marina Chapter

Marina was the Commission's star witness. She is the most damaging testimony against her dead husband.

She provided the motive when the Commission had no motive for the murder of JFK.

Everything she told them they used to create a circumstantial case against Lee when all the other evidence failed. Can I show this???

How long was she under "govt protection. I need a chronology on this. First the SS then the FBI.

Her credibility problem. Play this us: Her lying to the FBI about Lee and Mexico. The Walker Note; the alleged Nixon attempt. Her relations with Martin; the Willard hotel business. Her tales about Lee and rifle practice. The one where he carried a rifle on the bus wrapped in a rain coat; that he buried the rifle, etc.
