SAC SHANKLIN

LEE HARVEY OSWALD, aka
IS-R

FORMER GENERAL EDWIN A. WALKER

On late afternoon of 12/10/63, Inspector TOM KELLEY of Secret Service stated that one of his representatives today in talking to MARINA OSWALD, secured some additional information regarding the General WALKER shooting. She now states that LEE OSWALD supposedly went out about a week before the actual attempt to shoot General WALKER with the possible idea of taking a shot at him, but due to the fact there was no activity around, he made no attempt to do so. Then some three days before the shooting, he supposedly took his rifle out and buried it in a field near a church and on the night that he attempted to shoot General WALKER, there was some activity at this church. He dug up the rifle, took the shot, and then took the rifle back and buried it. Then he waited about three more days before going back out, and then bringing the rifle back to the Neeley Street address.
