Mr. Warren;

In the years past I always had great respect for you, until the past year or two and it seems very clear that you are one of the ones of our government that is selling us down the river to Communism and the niggers. I notice in the morning paper where a man by the name of Norman Redlich who has admitted being a member of the Communist Party has been put on the staff of you and the other men investigating the death of President Kennedy. Why? Are these PASTARDS allowed so much freedom in this great country that I have loved for the past 50 years. Also you are wanting to do away with the Bible reading in the schools and also YOU want to do away with the inscription in your great chambers "In God We Trust". It seems to me that you are leaning very much toward Communism ways and take over.

I think the Supreme Court is going too much into the Freedom of Religion to take it away from the people and it should be separate from the state or government. I never dreamed of seeing such changes in our great country in the past few years.

Our forefathers would turn over in their graves if they knew what is going on in the world to destroy what they fought and died for.

We sure need a house-cleaning and it should start at the Supreme Court I think and come on down the line.
