Chief Justice Earl Warren  
Washington D. C.

Honorable Justice Warren:

I am concerned about the reports that a Norman Redlick is a \$100.00 a day employee on the commission headed by you investigating the assassination of Pres. Kennedy. According to records of Senate Sub-committees this Norman Redlick is now or has been identified with several Communist organizations. This is indeed alarming, more so because the President was killed by a communist.

I believe that you have said that some of the information gathered in your investigation may not be made public during our life time because of its bearing on security. Do you mean that the American people are not to know some of this but Norman Redlick is??

I am writing some of the Senators and Representatives in congress asking them to check on this.

Surely there are qualified patriotic Americans who could serve on your committee in place of Norman Redlick. I trust that, now it has been brought to light, you will remove Norman Redlick from your committee.

Very truly yours
