Dear Congressman Miller,

This is a protest letter. I am protesting the fact that an admitted member of a Cited Communist Front is employed at one hundred taxpayer dollars a day as a consultant to the Hoover Commission. The man in reference is Prof. Norman Redlich.

I would like to know who hired him in spite of the fact that his affiliation was on his application. This is an explosive situation.

Isn't it ironic that the Communist Party will know the score about Jewell and the American public will have to wait twenty years. See what you can do.

Respectfully
Mrs. Thronia Snyder
