Hon. Earl Warren, Chief Justice
Supreme Court of the United States
Washington 25, D. C.

My dear Chief Justice:

Along the Freeway leading from Long Beach to Los Angeles is a prominent billboard sign which reads:

"SAVE OUR REPUBLIC - IMPEACH EARL WARREN"

Your recent decisions including the one which permits members of the international communist conspiracy passports for world travel are inclining many Americans to agree with the above slogan.

Your decisions do violence to the Constitution and the principles of the Declaration of Independence. The Supreme Court bench is no place to experiment with your ideas on 'social engineering.'

We would be happy to hear from you as to how you can justify Norman Redlich, a communist-fronter, sitting on the commission to investigate the assassination of President Kennedy.

Very truly yours,

Joseph P. Kesler
