Chief Justice Earl Warren
U.S. Supreme Court
Washington D.C.

Dear Justice Warren:

I have just read a news item which shocked me so thoroughly that I felt I had to write you about it.

It seems that because Mr. Norman Redlich is associated with an organization called the Emergency Civil Liberties Committee, the House Un-American Activities Committee is out after him. And it seems that they are going to be successful in getting him removed from your Warren Commission.

This organization, the ECLC, is not listed by the Justice Department as a red front organization. The FBI says that it is not Communist, and that there is no evidence that Redlich is a security risk of any kind.

Is Joe McCarthy still alive after all? Is there no one who can stop the blight on our country called the House Un-American Activities Committee? Can a man actually be removed from his job - with no evidence whatever against him, simply by the radical rights in Congress?

You are such a magnificent man, you have done so much to start our country down the clean path of fairness rather than obeying the technical letter of the law, is there nothing you can do to stop this sickening injustice?

It would be impossible to tell you how much we admire and respect you - how much we appreciate what you believe in and are doing.

God bless you.

Sincerely,

Mr. & Mrs. Stanley Paterson
