Jerry,

Well, finally I scanned and put online some of the Hoover phone/appt logs, for the years 1961 to 1964 to be exact:

<http://www.maryferrell.org/mffweb/archive/docset/getList.do?docSetId=1816>

Let me know if you have any trouble using them. Since the entries are handwritten in, using search to find names doesn't really work. Basically you just have to browse by date. Each volume covers a half-year, and when you select one, it then displays a table of contents with a link for each day.

I have the paper copies of all the other years, from 1941 (!) thru 1972, and will be putting more up, though not right away. If there are any other years you are particularly interested in, let me know (I would probably do 1965 - 1968 next).

I also have one box full of transcripts of particular phone calls. It is incomplete, and is curiously missing the volume which contains the last few months of 1963 and the first few months of 1964. Though probably some not-nice researcher just lifted it from the AARC collection and walked out with it.

Rex
