MEMORANDUM August 27, 1964

TO: **Howard P. Willens** and **Norman Redlich** orally this morning. After conference with Mr. **Strickland**, Mr. **Blawie** and I spoke with Mr. Rankin about that

FROM: **Wesley J. Liebeler** *(WJL)* Mr. Rankin has asked me to set up a conference with representatives of the FBI to discuss the fingerprints on the

SUBJECT: **Conspiracy** and **palprint** problems. I will cover both subjects in memoranda to Mr. Rankin tomorrow. My comments on Marina Oswald will follow.

It has not been my practice to write memoranda for the record. I am constrained, however, by remarks made to me by both of you within the last two days concerning my responsibilities in respect of the investigation of a possible conspiracy, to state the following:

1. Both of you have recently made ~~statements~~ in response to my criticism of the present state of affairs concerning conspiracy which indicate your belief that I am somehow responsible for same.
2. Those remarks are apparently based on the proposition that the question of a domestic conspiracy at least (ex-Ruby) was to be handled by those responsible for the so-called area III outlined in the "Tentative Outline of the Work of the President's Commission." While that has also been my general understanding for some time, examination of that outline indicates that the responsibility for the question of conspiracy is fragmented into several areas.
3. As I advised you both this morning, however, I personally cannot be held responsible for the present condition of the work on conspiracy. Both of you, Mr. Jenner and I conferred in my office sometime late in June at which time it was agreed by all of us I would assume responsibility for the section on personal motive (Chapter 7) and that Mr. Jenner would devote himself to certain questions relating to the possible existence of a domestic conspiracy. I understand he has been working on that since our conference.
4. By the middle of July it was thought that Chapter 7 was in such condition that I could work on other things. I was sent to New Orleans and Dallas to take depositions which, together with preparation and editing, took more than two weeks of my time. Since then I have been revising Chapter 7 and working on footnotes for it. I also wrote the section in Chapter 4 relating to the Irving Sports Shop story and footnoted it.
5. I am more than willing, if able, to accept my full share of responsibility for the work of this staff. I cannot, however, leave myself in the position implied by the above-described oral statements made

by both of you which I hope you both will admit, upon reflection, are false and unfair.

6. You have asked me what I think should be done at the present time in reference to our work on conspiracy. I gave you some of those suggestions orally this morning. After conference with Mr. Griffin, Mr. Slawson and I spoke with Mr. Rankin about that subject this afternoon. Mr. Rankin has asked me to set up a conference with representatives of the FBI to discuss the fingerprints on the cartons and the palmprint problems. I will cover both subjects in memoranda to Mr. Rankin tomorrow. My comments on Marina Oswald will follow.
