

Telephone call from Maggie Field 11/23/65 11 pm

David Lifton had a letter from Buchanan saying that Paris Match has reversed its position entirely and printing a long article with illustrations (by Buchanan) calling for re-examination of the case in the 11/27/65 issue, also a one-page summary of the Sylvan Fox book. The illustrations will deal with the puff of smoke and the back of the Stemmons sign (streaks).

A similar feature will be in Tempo (Italy) as a series of three articles and Triompho (Spain) will do a front cover feature. Buchanan's three articles deal with (1) photograph of Oswald with rifle (2) head shot and trajectories, and marksmanship tests (3) puff of smoke.

David's "mystery" witness turned out to be Altgens, and Maggie feels D is reading too much into it and that there is nothing of any substance involved.
