

Date April 1, 1964

1

Mr. SAM KRONE, Owner, Sam's Drug Store, 1102 East Second Street, Monroe, Michigan, advised that about a week previous he had observed some photographs that belonged to HARRY SCHNEIDER, 24532 West Mc Nichols, Detroit, Michigan, which had been taken in Dallas, Texas, at about the time of the assassination of President KENNEDY.

Mr. KRONE advised that one of the photographs was of the Texas School Book Depository Building and this photograph showed a window in the building on the second floor which was raised as was the window on the sixth floor from which the president was shot. Mr. KRONE said that the fact that a window was raised on the second floor indicates the possibility that someone other than LEE HARVEY OSWALD may have been involved in the assassination. Mr. KRONE said he did not know at what time the photographs of the building were taken and had no way of knowing if they were taken at about the time of the assassination or some hours, or even days later.
