

Here are the indexes to certain Warren Commission Documents which you ordered from me. Please fill out and mail the attached postcard.

Your copies of the indexes to CD 5, 6, 7, 75, 205, 301, 441, 722, and 897 were made from copies which had been in use by a researcher. All handwritten notations on these indexes should be ignored. The other indexes are as obtained from the Archives.

The 47 indexes listed in my mailing of October 14 were all the indexes to FBI CD's which were listed by the Archives as available. A copy of the index to CD 1472, which was not on the Archives list and which was just recently obtained, is included. There are probably more indexes available; we will tell you if we find any.

The poor legibility in some places is due either to the poor quality of the "original" used by the Archives, or, in a few cases, to degradation in the process of reduction and reproduction. If you need any of the missing information, I might be able to provide it. If any pages are missing from your copy, please let me know.

We have cross-indexed all of CD 7 and CD 75, and major portions of several other CD's, concentrating on the withheld pages. Most of this material has not been typed up yet. Let me know if you wish to be advised of the progress of this project.
