(2#)

Indent both sides 20usp.

- The designation of names under particular categories is not perjorative or accusatory. Under "Organized Crime" there are names not only of underworld figures but of innocent persons mentioned in the context of organized crime, including individuals murdered by mobsters.
- ^{No space} The lists are not exhaustive but include names of persons mentioned in the volumes who are known to fall into particular categories. For example, "Dealey Plaza Witnesses" does not provide a complete roster of witnesses to the assassination but gives the names of the witnesses mentioned in the HSCA Report and supporting volumes.
- ^{No space} Some cross-referencing has been done. For example, associates of Ruby known to be connected to organized crime are listed under both headings.

all names will
be in 2 columns.
On the longer
sub sections
(e.g. see next page)
Simply type down
to bottom of ^{your} page,
continue to top of
your page for right column,
then, when starting
your next new
