Dear Sylvia,

What a wonderful evening! I'm so glad we finally met, and under circumstances favorable to relaxing and discussing.

I'm very curious about Ruby and Dr. Jolly (enclosed). How and why did an out-of-state shrink with a background of overdosing elephants on LSD get called to Ruby's cell to diagnose — and treat? — him?

Thanks for your hospitality and for being the only "author" I've ever met who is more — or opposed to less — intelligent and interesting than their admired work.

Best Regards,
Phil
