

27 July 1969

Dear Fred,

I have just returned from a month in Boston, where I was working at an international meeting, and find your letter of the 9th with enclosed materials and photos as well as your later note. I will study this material as soon as I can, but I have a huge accumulation of mail and other chores. I am always amazed anew to discover how much can pile up in only a few short weeks. However, I do not like to hold you up and if you need the materials back immediately, please let me know.

Otherwise, I hope to get to it and send a reply in about two weeks, if that is okay. Best regards,

Sincerely yours,

(Later)

Preliminary Comment

Re "pool of blood" see Jean Hill in  
6H 212-13 suggesting it was a red-  
colored soft drink, also S. Weitzman  
in 7H 107 suggesting there was bone and  
possibly also tissue and blood from JFK's  
head on street.

Re identity of the negro couple and child  
seen in Boston photo, they appear to  
correspond with Mr & Mrs John  
Arthur Clavin and 3-year old son.  
See CE 2003 pp 16-17, See Decker  
Exhibit No 5323, Vol XIX, p. 617.
